HOBBIES

Listening to music

Drawing

Singing

PROFILE

As a 3D Lighting Artist, I have over three years of experience in the industry. My passion for lighting and composition drives me to create beautiful imagery that tells a story. My skills with Maya, Mental Ray, and V-Ray allow me to push the boundaries of what is possible in CG lighting. I am always exploring new techniques and developing my own style.

EMPLOYMENT HISTORY

● 3D Lighting Artist at Lightworks, ND

Jun 2022 - Present

- Worked on over 50 projects in the last 5 years.
- Lit and rendered 3D environments for a AAA video game.
- Worked with Unity to create realistic lighting for mobile games.
- Created stylized lights for an animated short film.
- Successfully completed all assigned tasks within set deadlines.

● 3D Lighting Artist II at 3D LightFX, ND

Jul 2019 - May 2022

- Achieved a 85% on-time delivery rate for all projects.
- Increased efficiency by 15% through the use of new 3D lighting software.
- Cut project costs by 10% through improved resource management.
- Trained 2 junior artists in 3D lighting techniques.
- Completed 5 personal projects exploring innovative uses of light and shadow in CG environments.
