Nella Lienhart

3D Modeler

Profile

I am a 3D modeler with over three years of experience. I have worked on a variety of projects, from video games to movies. I have a strong understanding of the software and how to create realistic models. I am also able to work within a team or independently.

Employment History

3D Modeler at Trimble, MD

Apr 2022 - Present

- Successfully created 3D models for a variety of products, including toys, car parts, and medical devices.
- Worked closely with engineers and other team members to ensure accuracy of models.
- Met tight deadlines while maintaining high standards of quality.
- Contributed to the development of new software tools and processes.
- Regularly gave presentations on modeling techniques to colleagues.
- Authored several articles on 3D printing which were published in industry magazines.

3D Modeler II at Autodesk, MD

Aug 2019 - Feb 2022

- Created 3D models of products for a major home improvement retailer, resulting in increased sales by 10%.
- Designed 3D models of buildings and interiors for an architectural firm, saving the company an estimated \$15,000 in construction costs.
- Developed a new technique for creating realistic textures for 3D objects, which was adopted by the studio where I worked.
- Trained junior modelers on best practices and software techniques.
- Led a team of modelers to create assets for a AAA video game title, which shipped 2 million units worldwide.
- Won several awards from industry peers for my work in modeling and texturing.

Education

Associate of Arts in 3D Modeling at Anne Arundel Community College, MD

Aug 2015 - May 2019

Some skills I've learned are 3D modeling, texturing, lighting, and rendering.

Certificates

Autodesk Certified Professional

Aug 2020

3D Studio Max Certification

Jan 2019
