Profile

3D rigging artist with over three years of experience in the field. I have worked on a variety of projects, from small indie games to AAA titles. My skills include creating and manipulating rigs for characters, props, and vehicles; as well as being able to troubleshoot any issues that may arise during the process. I am also proficient in several software programs such as Maya, 3ds Max, zBrush, Substance Painter, and Photoshop.

Employment History

3D Rigging Artist at Blue Sky Rigging, WA

Mar 2022 - Present

- I created a 3D rigged model of a character in under 2 hours.
- I was able to quickly and easily animate a complex rig with over 50 bones.
- I successfully exported my animations into Unity with no issues.
- My rigs were used in several commercials and video games.
- I taught other artists how to create and use rigs effectively.

3D Rigging Artist II at North Star Rigging, WA

Aug 2019 - Feb 2022

- Successfully completed rigging for 10 characters in 3D animation software within the allotted time frame.
- Successfully added muscle and bone systems to 5 rigged models, ensuring realistic movement.
- Worked with team of 4 other animators to successfully complete a short animated film on time and under budget.
- Rigged 15 models with facial expressions, using both bones and shape keys, allowing for a wide range of emotions to be expressed by the characters.
- Created detailed instruction manuals for fellow animators on how to use newly created rigs effectively."
