PROFILE

Audiologist with over 1 year of experience providing comprehensive diagnostic evaluations and rehabilitation for patients experiencing hearing loss. Delivered high-quality patient care by developing trusting relationships and collaborating with multidisciplinary teams. Demonstrated expertise in administering a variety of audiologic tests, including pure tone audiometry, speech reception thresholds, auditory brainstem responses (ABR), otoacoustic emissions (OAE), electrocochleography (ECoG), and videonystagmography (VNG). Provided education to patients on amplification options, assistive listening devices, communication strategies, aural rehabilitative techniques

EMPLOYMENT HISTORY

● Audiologist at Capital Beltway Audiology, MD

May 2022 - Present

- Successfully identified and treated over 1,000 patients with hearing impairments.
- Developed new treatment methods that improved patient outcomes by 20%.
- Successfully implemented a new EHR system for the audiology department.
- Trained 5 new audiologists on best practices in audiology care.
- Served on committees that developed state-wide standards for newborn hearing screenings.

● Audiologist II at Mid-Atlantic Audiology, MD

Jul 2021 - Apr 2022

- Implemented a new system for tracking patient data that led to a 15% increase in efficiency.
- Conducted research that resulted in the development of a new hearing aid that helped 100 patients with hearing loss.
- Wrote and published an article in a medical journal on the benefits of early intervention for children with hearing loss.
- Trained 5 new Audiologists on best practices.
- Organized and ran monthly support groups for parents of children with hearing loss.
