## PROFILE

I am an Audiometrist with over three years of experience in the field. I have worked in a variety of settings, including hospitals, private practices, and schools. I have extensive knowledge of hearing loss and its causes, as well as how to treat it effectively. I am passionate about helping people improve their quality of life by providing them with the best possible care. I am dedicated to my work and take pride in providing excellent service to my patients.

## EMPLOYMENT HISTORY

### ● Audiometrist at Arkansas Hearing Center, AR

May 2022 - Present

- Successfully completed over 1,000 hearing screenings with a pass rate of 98%.
- Conducted diagnostic testing on patients experiencing hearing loss and successfully diagnosed the root cause in 95% of cases.
- Successfully fitted 100+ patients with custom-made earplugs that alleviated symptoms associated with tinnitus.
- Worked one-on-one with 50+ children to help them better understand their hearing condition and how to cope/live with it.
- Assisted in research for a new type of cochlear implant that is currently being developed.
- Collaborated closely with ENT doctors to create treatment plans for each patient that took into account both medical and lifestyle factors.

### ● Audiometrist Trainee at Audiology and Hearing Solutions, AR

Jul 2019 - Mar 2022

- Assisted in conducting hearing tests for patients of all ages.
- Assisted in recording and analyzing test results.
- Helped to fit patients with hearing aids.
- Monitored patient progress after fitting them with hearing aids.
- Educated patients and their families about how to use and care for hearing aids.
- Maintained cleanliness and organization of the audiometry lab.

## EDUCATION

### Associate's Degree in Audiology at University of Arkansas

Aug 2015 - May 2019

Some skills I've learned are how to administer hearing tests, how to fit and dispense hearing aids, and how to provide counseling to patients and their families.
