Merlee Matoba

Business Intelligence Analyst

I am a Business Intelligence Analyst with over three years of experience. I have worked extensively with Excel, Access, SQL Server Management Studio, and Tableau to develop comprehensive reports and analysis for my clients. My work has helped organizations make more informed decisions about their business operations by providing them with actionable insights based on data analytics. In addition to my technical skills, I also possess strong communication and presentation skills that allow me to effectively communicate complex information in an easily understandable manner.
