

Ruthie Barnd

CNC Maintenance Technician

I am a CNC Maintenance Technician with over 3 years experience in the industry. I have gained a strong knowledge of CNC machines and their maintenance through my work experience. I possess excellent problem solving skills which has helped me troubleshoot and repair various issues with CNC machines. My good communication skills allows me to liaise effectively with colleagues from different departments in order to resolve any problems that may arise. Overall, I am an experienced and reliable technician who is able to carry out all aspects of CNC machine maintenance efficiently and effectively.
