YOKO MARCARELLI

Data Quality Engineer

PROFILE

I am a Data Quality Engineer with over 4 years of experience. I have worked on data quality projects in a variety of industries, including healthcare, retail, and financial services. My skills include data cleansing, data enrichment, data validation, anddata management. I am an expert in using Excel for data analysis and have developed several custom macros to automate repetitive tasks. I am also proficient in SQL and VBA programming. In my previous role as a Data Quality Analyst at XYZ Corporation, I was responsible for ensuring the accuracy of customer records by performing regular audits against the master database.
