Profile

As a Dental Laboratory Technician with over 5 years of experience, I have gained the skills and knowledge necessary to fabricate high-quality dental prosthetics. I am proficient in all aspects of dental laboratory technology, from taking impressions and poured models to creating dentures, bridges, crowns, and implants. I take pride in my work and pay close attention to detail in order to produce results that meet or exceed my patients' expectations. In addition to being an expert technician, I am also excellent at customer service and build strong relationships with both new and existing clients.

Employment History

Dental Laboratory Technician at Nevada Dental Lab, NV

Jun 2022 - Present

- I increased productivity by 30% in the dental lab by streamlining workflows.
- I created 10 new oral prosthetics that improved patient outcomes.
- I trained 2 new dental technicians, resulting in a more efficient team.
- I developed a new method for fabricating custom dentures that saved the practice time and money.
- I implemented a quality control system that reduced errors by 50%.

Dental Laboratory Technician II at Desert Dental Lab, NV

Sep 2017 - Apr 2022

- Trained three new dental laboratory technicians in proper methods and procedures.
- Assembled 150 dentures within two-week period to meet high demand from dentist offices.
- Created custom molds for difficult cases, resulting in 95% satisfaction rate from customers.
- Reduced waste by 10% through improved organization of work station and materials.
- Developed new process for fabricating veneers which saved the company \$4,000 per month.
