PROFILE

I am a Full Stack Developer with over 5 years experience. I have worked on a wide range of projects, from small personal projects to large enterprise-level applications. I have gained a strong understanding of both front-end and back-end development during my time in the industry. My skills include HTML, CSS, JavaScript, PHP, MySQL, and Apache. I am confident in my ability to create well-designed and efficient web applications

EMPLOYMENT HISTORY

Lead Full Stack Developer at Vested, NH

May 2022 - Present

- Led a team of full stack developers in building an e-commerce platform that increased sales by 20%.
- Successfully migrated the company's website from PHP to Node.js, resulting in a 50% decrease in page load times.
- Implemented a new continuous integration and delivery pipeline that reduced release cycles from 2 weeks to 1 day.
- Designed and implemented a microservices architecture that decreased dependencies and improved scalability.
- Created an automated testing suite that reduced QA time by 30%.

Full Stack Developer II at Dstillery, NH

Sep 2017 - Mar 2022

- Led the development of a new web platform that increased user engagement by 25%.
- Developed an e-commerce platform that generated \$1M in sales within the first month.
- Implemented a CRM system that reduced customer churn by 10%.
- Designed and developed a mobile app that was downloaded 100,000 times in its first week.
