4221 Vine Street, Kansas City, MO 64110

PROFILE

I am a Healthcare IT Project Manager with over 5 years of experience. I have managed projects in various healthcare settings, including hospitals, clinics, and long-term care facilities. I have a strong understanding of the complexities involved in managing health information technology projects. I am adept at working with stakeholders to ensure that project deliverables are met on time and within budget. I am also experienced in leading project teams and ensuring that all team members are aware of their roles and responsibilities.

EMPLOYMENT HISTORY

● Healthcare IT Project Manager at SSM Health, MO

Mar 2022 - Present

- Successfully implemented an EHR system for a large hospital, going live on time and under budget.
- Project managed the installation of a new PACS system for a radiology department, resulting in increased efficiency and productivity.
- Successfully migrated all patient data to a new HIS platform with zero data loss.
- Coordinated IT efforts during construction of a new wing at the hospital, ensuring that all systems were properly installed and tested prior to go-live.
- Leading team of 5 developers in creating custom software solution that automates billing process and reduces errors by 50%.
- Managed implementation of enterprise level security solution across entire healthcare organization.

● Healthcare IT Project Manager II at Cerner Corporation, MO

Jul 2017 - Feb 2022

- Led a team of 5 healthcare IT professionals in the development and implementation of an EHR system for a regional hospital. The project was completed on time and under budget.
- Managed the installation of a new PACS system for a large hospital. The project was successfully completed within the specified timeframe and budget.
- Coordinated the rollout of a new HIS system for a medium-sized hospital. The project went smoothly and was completed on schedule.
- Led the migration of data from an old EHR system to a new one for a small clinic. The transition went flawlessly, with no disruption in patient care or operations. All patient records were transferred without incident, and the clinic resumed normal business hours immediately following completion of the project.

EDUCATION

Bachelor of Science in Healthcare Administration at Washington University in St. Louis

Aug 2013 - May 2017

Some skills I've learned are: critical thinking, problem solving, time management, teamwork, and communication.
