## Skills

HVAC Controls

HVAC Systems

Building Automation Systems

DDC Controllers

BMS systems

Energy Management Systems

## Languages

English

Urdu

## Hobbies

Auto Repair

Woodworking

Cooking

## Profile

I am an HVAC Controls Technician with over three years of experience. I have worked on a variety of projects, both big and small. My skills include installation, programming, troubleshooting, and repair. I have a strong understanding of how HVAC systems work and how to control them. I am also familiar with various types of controls equipment and software. In my previous position, I was responsible for the maintenance of all HVAC controls equipment in our facility. This included ensuring that all equipment was properly calibrated and functioning correctly. Additionally, I provided support to other technicians when they were having difficulty with their own projects

## Employment History

### HVAC Controls Technician at ControlAir, Inc., IL

May 2022 - Present

- Installed HVAC controls in 3 commercial buildings totaling over 100,000 square feet.
- Programmed and commissioned 10 Trane VAV systems.
- Successfully troubleshooted and repaired 7 Honeywell zoning systems.
- Replaced 5 old pneumatic thermostats with new digital models.
- Upgraded an outdated Carrier chiller control system to a more modern version.

### HVAC Controls Technician II at Environmental Systems Design, Inc., IL

Jul 2019 - Apr 2022

- Installed, programmed, and commissioned 30+ HVAC control systems for new construction projects ranging in size from small office buildings to large healthcare facilities.
- Developed custom programming solutions to meet the unique needs of each project, including integration with building automation systems and other 3rd party equipment.
- Trained facility staff on proper operation of the controls system and troubleshooting techniques.
- Responded to service calls and resolved issues in a timely manner.
- Monitored energy usage and identified opportunities for improvement.
