Profile

I have over 1 year of experience as a Kennel Attendant. I am responsible for the care and welfare of the animals in our facility. This includes feeding, watering, exercising, cleaning their living quarters, and providing them with any necessary medical treatment. I also keep detailed records of each animal's health and behavior. In addition to my kennel duties, I also assist with adoptions by giving potential adopters information about our animals and helping them choose a pet that is right for their home
