## Profile

I am a Manager with over 5 years experience. I have extensive experience in managing people and resources. I have a proven track record in delivering results and meeting deadlines. I am an effective communicator with excellent interpersonal skills.

## Employment History

### Software Engineering Manager at Boeing, MO

Apr 2022 - Present

- Led a team of 12 software engineers and 3 QA analysts in the development of an e-commerce platform that processed \$1B in transactions per year.
- Implemented Continuous Integration/Deployment pipelines for 8 microservices, reducing production deployment times from 2 hours to 15 minutes.
- Instrumented the monolithic e-commerce platform with New Relic, resulting in a 30% reduction in page load times.
- Wrote custom scripts to automate various manual tasks performed by the engineering team on a daily basis, saving each engineer 1 hour per day.
- Led weekly standup meetings and monthly sprint planning sessions for Agile teams totaling 25 people.

### Lead Software Engineer at Express Scripts, MO

Aug 2017 - Feb 2022

- Led a team of 4 software engineers in the development of a new e-commerce platform for Company XYZ. The platform was developed using Java, Spring MVC, and Hibernate and went live in 6 months with zero defects.
- Developed an automated testing framework that reduced regression test time by 50%.
- Implemented continuous integration and delivery tools and processes that increased deployment frequency by 400%.
- Led the effort to migrate the company's flagship product from monolithic architecture to microservices. The project was completed on schedule and under budget.
