

Latrelle Urroz

Master Machinist

📁 Employment History

Master Machinist at Company 1, ID

Jun 2022 - Present

- Cut production time of a part by 30%.
- Reduced scrap rate by 10%.
- Trained 2 apprentices in machining processes.
- Developed and implemented new process for drilling holes that increased productivity by 20%.
- Wrote and edited the shop floor training manual.

Senior Machinist at Company 2, ID

Aug 2013 - May 2022

- Successfully completed the programming, set-up and operation of 5 axis CNC machines to produce small to large complex parts.
- Successfully operated a variety of manual and CNC machine tools including lathes, mills, grinders and drill presses.
- Read blueprints/engineering drawings and accurately interpreted dimensions and tolerances to create machined parts that met or exceeded customer expectations.
- Utilized strong math skills on a daily basis to calculate decimal expansion, trigonometric functions & metric conversions.
- Maintained high standards for quality control by regularly inspecting finished products against blueprint specifications using precision measuring instruments such as calipers, micrometers & gauges.

Machinist at Company 3, ID

Aug 2002 - Jun 2013

- Operated and monitored machinery to fabricate, finish, or process metal products according to specifications:.
- Started machines and observed operation to detect any problems.
- Changed machine attachments, such as chucks, jigs, fixtures, feeders ,and cutting tools ,according to the type of machining required.
- Measured dimensions of finished workpieces with precision measuring instruments .
- Adjusted controls on machines within specified tolerances in order stop or adjust flow of materials into workpiece.
- Performed routine maintenance on equipment and replaced worn tooling following manufacturer's recommendations.

🎓 Education

High School Diploma at Pitzer College, CA

Aug 1998 - May 2002

I've learned how to be organized, how to set goals, and how to study effectively.

📄 Certificates

Certified Master Machinist

May 2021

Certified Journeyman Machinist

Mar 2020
