Santa Hollands

Mobile App Developer

I am a Mobile App Developer with over 3 years of experience. I have worked on both Android and iOS platforms, and have developed apps for a variety of businesses and purposes. My skills include programming in Java, Swift, and Objective-C; working with databases such as SQLite; using frameworks like AngularJS, React Native, and Node.js; and publishing apps to the Google Play Store or Apple App Store. In addition to my technical skills, I also have strong project management abilities and can work well independently or as part of a team.
