Playing Video Games

## Profile

I have over 4 years of experience as a network engineer. I have designed, implemented and maintained complex networks for large organizations. I am an expert in networking technologies and have a deep understanding of how to troubleshoot networking issues. I am also certified in CCNA Routing & Switching and CCNP Security.

## Employment History

### Network Engineer at Verizon, DE

Mar 2022 - Present

- Led the installation of a new network for a medium-sized company with 100 employees. The project was completed on time and under budget.
- Implemented a VoIP system for a large corporation with 1000 employees. The project increased productivity and saved the company \$50,000 per year in telecommunication costs.
- Designed and implemented a secure wireless network for a hospital with 500 beds. The network provides coverage to all areas of the hospital including patient rooms, staff offices, and public areas.
- Installed and configured routers, switches, firewalls, and other networking equipment for small businesses in my local community. I have helped over 100 businesses get connected to the internet and improve their communication capabilities.. 5 Managed day-to-day operations of corporate networks consisting of hundreds or thousands of devices.

### Network Engineer II at Comcast, DE

Sep 2018 - Jan 2022

- Led a team of 5 network engineers in the successful implementation of a new VoIP system for a major client, resulting in increased call quality and decreased dropped calls by 25%.
- Successfully implemented changes to the company's internal network which resulted in an increase in speeds by 15% across the board.
- Worked with vendors to upgrade outdated hardware on the company's website, increasing page load times by 20%.
- Created detailed documentation for all aspects of the company's networks, allowing other engineers to easily troubleshoot and resolve issues.

## Certificates

### Cisco Certified Network Associate (CCNA)

Mar 2021

### Cisco Certified Network Professional (CCNP)

Jun 2019
