(915) 130-1901

1832 Blakemore Avenue, Nashville, TN 37212

Profile

I have over three years of experience as an ophthalmic technician. In my role, I conduct vision tests, measure patients' eye pressure, and take retinal photographs. I also assist the doctor during patient examinations and surgeries. My experience has taught me how to handle different types of medical equipment and how to work well with a team. I am passionate about providing quality care for patients and would love to continue doing so in a new setting.

Employment History

Ophthalmic Technician at First Choice Optical, TN

Mar 2022 - Present

- Assisted ophthalmologists in over 500 surgeries.
