

# Freeda Diprima

Refrigeration Technician

## Profile

I am a Refrigeration Technician with over three years of experience. I have worked in both commercial and industrial settings, performing maintenance and repair work on HVACR systems. I have a strong understanding of the principles of refrigeration, as well as the ability to troubleshoot and repair complex issues. In addition, I am able to install new systems according to specifications. My excellent communication skills allow me to effectively interact with customers and co-workers alike.

## Employment History

### Refrigeration Technician at Carrier Corporation, MD

May 2022 - Present

- Installed a new walk-in cooler for a restaurant, which increased their storage capacity by 50%.
- Replaced an industrial freezer unit for a grocery store, which improved their efficiency by 20%.
- Repaired a broken ice machine at a hotel, which saved them \$500 in replacement costs.
- Installed a new air conditioning unit in an office building, which cooled the space more evenly and reduced energy costs by 10%.
- Cleaned and serviced HVAC units in 10 different buildings, which extended the life of the units by an average of 2 years.

### Refrigeration Technician II at Lennox International, MD

Sep 2019 - Apr 2022

- Installed a new walk-in cooler for a restaurant, ensuring that it met all health and safety regulations.
- Repaired an industrial freezer, which had been out of commission for several weeks.
- Successfully completed preventative maintenance on 25 refrigeration units in a single day.
- Responded to an emergency call-out and repaired a malfunctioning ice machine.
- Diagnosed and repaired a fridge that was not cooling properly.
