PROFILE

I am a School Social Worker with over 3 years of experience working in an urban public school district. I have a strong knowledge of special education law and process, as well as experience collaborating with teachers, administrators, and outside agencies to provide comprehensive services to students with disabilities and their families. I am passionate about advocating for the rights of all students to receive a quality education, regardless of their background or circumstances. In my previous role, I provided individual counseling services to students ages 6-18 who were experiencing social, emotional, or behavioral difficulties that interfered with their ability to succeed academically. I also created and implemented programming aimed at increasing parental involvement in school activities and decision-making processes. My work has resulted in increased student engagement and academic achievement for many of the families I have served.
