## Profile

I am a security consultant with over 5 years of experience. I have worked with clients in various industries, including healthcare, finance, and manufacturing. I have a strong understanding of security risks and vulnerabilities, and how to mitigate them. I also have experience designing and implementing security solutions that meet the unique needs of my clients. In addition to my technical skills, I am also an excellent communicator and project manager. My goal is always to ensure that my clients' businesses are secure against any threats they may face

## Employment History

### Senior Security Consultant at InfoSec Institute, NE

May 2022 - Present

- Led a team of 4 security consultants in conducting a comprehensive security assessment for a large financial institution.
- Successfully conducted over 100 interviews with senior executives, staff, and third-party vendors.
- Identified over 300 potential security risks and developed mitigation plans for each one.
- Created a customized information security program for the client that was implemented successfully.

### Security Consultant at Global Information Assurance Certification, NE

Sep 2017 - Mar 2022

- Successfully consulted on the security for a major financial institution, ensuring that the client's data and assets were well-protected.
- Successfully designed and implemented a comprehensive security system for a large corporation, protecting their critical infrastructure and sensitive information.
- Managed a team of security consultants in successfully completing multiple projects on time and within budget.
- Successfully completed various penetration testing engagements for clients in different industries, identifying vulnerabilities and recommending remediation steps.
