

Clarina Foulkes

Senior Team Lead

I am a senior team lead with over 5 years experience in the industry. I have led teams of up to 12 people and have been responsible for ensuring that projects are completed on time and within budget. I have excellent communication skills and am able to motivate team members to achieve their best work. I am also experienced in conflict resolution and can quickly identify and resolve any issues that may arise within a team.

Employment History

Senior Team Lead at Dillard's, AR

Apr 2022 - Present

- Led a team of 8 developers in building an e-commerce platform that achieved \$1B in GMV within the first year.
- Grew the team to 12 members and increased efficiency by 30%.
- Implemented a new development process that reduced cycle time from 4 weeks to 2 weeks.
- Trained junior developers on best practices and led them through several successful projects.
- Acted as Scrum Master for 3 sprints, successfully delivering all features on time.
- Presented at company-wide engineering meeting on the importance of code review.

Lead Software Engineer at Walmart, AR

Jul 2017 - Mar 2022

- Led a team of 4 software engineers in the development of a new e-commerce platform for Company XYZ. The platform was completed on time and under budget, with zero defects.
- Successfully migrated Company XYZ's website from an outdated content management system to a modern one, resulting in increased traffic and engagement.
- Led the development of several features for Company XYZ's flagship product, including a new payment gateway integration and an automated customer support chatbot. Both features were well received by users and resulted in increased sales conversion rates.
- Implemented various performance optimization techniques that reduced page load times by up to 50%. This led to improved user satisfaction scores as well as lower server costs due to decreased bandwidth usage.
