(402) 987-3957

Elm Street, New York, NY 10001

Profile

I am a highly experienced solar electrician with over 5 years in the industry. I have installed, maintained and repaired both residential and commercial solar systems. I have a strong understanding of electrical theory and principles, as well as experience working with PV modules, inverters, batteries and other system components. My ability to troubleshoot issues quickly and efficiently has made me an asset to my team on many occasions. In addition to my technical skills, I also possess excellent customer service skills which makes me adept at dealing with clients/customers on a daily basis
