EMPLOYMENT HISTORY

● Software Engineering Manager at Walmart, MT

Mar 2022 - Present

- Led a team of 12 software engineers to develop and release a new product line that generated \$1.2 million in sales within the first 6 months.
- Successfully launched 3 major products on schedule and under budget.
- Reduced companywide software development costs by 15% through process improvements and better resource utilization.
- Trained and mentored 5 junior software engineers, helping them become productive members of the team.

● Lead Software Engineer at Target, MT

Jul 2019 - Feb 2022

- Led a team of 4 software engineers in developing a new e-commerce platform for the company. The platform was completed in 8 months and launched on schedule.
- Successfully implemented Agile methodology across the engineering team, which resulted in a 20% increase in productivity.
- Reduced development time for new features by 30% through process improvements and better utilization of resources.
- Led the development of several key features that were critical to the success of the product launch, including search functionality and order management system.

● Senior Software Engineer at Best Buy, MT

Sep 2015 - May 2019

- Led a team of 4 software engineers in the development of a new e-commerce platform that increased sales by 20% within 6 months.
- Developed an AI chatbot that decreased customer support requests by 30%.
- Increased the speed of our website by 50% using caching and other techniques.
- Reduced server costs by 25% through optimizing code and moving to cheaper hosting providers.
- Wrote 1000 lines of code per week, on average.

EDUCATION

High School Diploma at Big Sky High School, MT

Sep 2011 - May 2015

I've learned how to study for and take tests, how to do research, and how to write papers.
