

Johnsie Velin

Technical Program Manager

Profile

I am a Technical Program Manager with over 5 years experience. I have managed programs for large companies and have a proven track record of success. My skills include program management, project management, product management, and business analysis. I am also an expert in process improvement and change management.

Employment History

Technical Program Manager at Verizon Communications, NJ

Apr 2022 - Present

- Led a team of engineers in developing and launching a new product that increased company revenue by 15%.
- Successfully managed the development and implementation of a technical program that resulted in saving the company \$1 million annually.
- Played a key role in developing and managing our engineering budget, which helped save the department 20% each year.
- Managed several complex projects simultaneously while still delivering them on time and within budget.
- Hired, trained, and mentored 4 new Technical Program Managers who are now successfully leading their own teams.
- Wrote various process documents (SOPs, Work Instructions) for different departments which helped to improve communication & efficiency.

Associate Technical Program Manager at PSEG, NJ

Sep 2017 - Mar 2022

- Led a team of 4 engineers in developing a new product, which increased sales by 25%.
- Wrote 5 patents that resulted in \$1 million in revenue.
- Implemented a new manufacturing process that reduced production costs by 15%.
- Developed a new marketing campaign that generated an additional \$2 million in sales.
- Trained 10 customer service representatives on how to use the company's products.
- Led a project to develop a new software application, which was used by 100 customers within the first year.
